1974 Cumulative Index

This is an index of subjects covered in NURSING UPDATE from January through December 1974 (Vol. 5, Nos. 1-12). The numbers immediately following the subject listing indicate the issue; for example, 5/74 is May 1974. Page numbers in bold type indicate major coverage of the topic. Single back copies of NURSING UPDATE are available, while the supply lasts, at $1 each. For discount information on larger back-copy orders, write JoAnn McAteer, NURSING UPDATE, 16 Thorndal Circle, P.O. Box 1245, Darien, CT 06820.

Acid-base problems *see also Acidosis, Alkalosis* understanding 3/74, **1-13**

Acidosis
metabolic 3/74, 8-9, 12
respiratory 3/74, 7-8

Aging patients
evaluating and managing 9/74, **1-10**

Alkalosis
metabolic 3/74, 12-13
respiratory 3/74, 3-7

Antibiotics
and renal disease 4/74 **1-14**
for controlling infection 1/74, **10-15**

Anxiety *see Emotional illness*

Arterial insufficiency *see Arteriosclerosis*

Arteriosclerosis
detecting and managing 7/74, **1-9**
in the aging patient 9/74, 3-5
with edema 7/74, 13-14

Bedsores *see Decubitus ulcers*

Blood gas analysis *see Acid-base problems*

Blood pressure *see Hypertension*

Cardiac massage *see Emergency care*

Cardiac patient
exercise for 10/74, **4-6**
fear and 10/74, 3

Charts
acid-base problems, physiologic progression 3/74, 10-11
cardiac patient, walking program 10/74, 6
convulsive disorders, classification 1/74, 4-5
electronic thermometers, comparison 11/74, 4-5
hypertension and life expectancy 5/74, 10
hypertension, guide to drug therapy 6/74, 10-11
potassium in foods 5/74, 7
pregnancy, effects of drugs 4/74, 14-15
renal impairment, antibiotic dosage 4/74, 13
stethoscopes, comparison 9/74, 12-13

Communication
using transactional analysis 11/74, **1, 10-15**

COPD (chronic obstructive pulmonary disease)
educating the patient with 8/74, **1, 10-15**
exercise for 10/74, **7-9**
postural drainage for (illustration) 8/74, 14

Coronary *see Cardiac*

Decubitus ulcers
causes, prevention, and treatment 12/74, **1-14**

Diabetes
exercise and diet for 10/74, 13

Diet
and the aging patient 9/74, 9-10
and hypertension 6/74, 13
and osteoporosis 2/74, 4

Drug therapy
for aging patients 9/74, 4-5
for decubitus ulcers 12/74, 12-13
for hypertension 6/74, 9-13
for infections 1/74, **10-15**
during pregnancy 4/74, **14-15**
for osteoporosis 2/74, 6
during renal disease 4/74, **1-14**

Edema
with arterial and venous insufficiency 7/74, 13

Elderly patient *see Aging*

Emergency care
for allergic reactions 8/74, 4
for drug overdose 8/74, 7
external cardiac massage (illustration) 8/74, 5
pulmonary resuscitation (illustration) 8/74, 6
in-office 8/74, **1-9**

Emotional illness
in aging patients 8/74, 5-6
and homosexuality 2/74, 13

Epilepsy
causes and management of 1/74, **1-9**

Equipment
review of acoustic, magnetic, and electronic stethoscopes 9/74, **1, 11-15**
review of electronic thermometers 11/74, **1-9**

Exercise
for ASO patients 7/74, 9
breathing reconditioning (illustration) 8/74, 12
for COPD patients 10/74, **7-9**
for diabetic patients 10/74, 13
for healthy patients 10/74, **14-15**
for obese patients 10/74, **12-13**
for patients with osteoporosis 2/74, 9

Geriatrics *see Aging*

Homosexuality
understanding and dealing with 2/74, **12-15**

Hypertension
patients' learning needs 5/74, **1-15**
therapy for 6/74, **1-15**

Infections
controlling 1/74, **10-15**
throat, culturing for 2/74, **10-11**

Ischemic ulcer *see Decubitus ulcers*

Kidney disease *see Renal disease*

Leg pain
arterial and venous causes of 7/74, **1-15**

Microbes *see Infections*

Obesity
exercise for 10/74, **12-13**

Osteoporosis
in aging patients 9/74, 6-8
causes of 2/74, 7
in children 2/74, 8
in postmenopausal women 2/74, **1-9**

Patient instructions
ASO, how to ease leg and foot pain in 7/74, 6
blood pressure, how to take 5/74, 14
heart rate, how to read and record 9/74, 7
varicose veins 7/74, 7

Patient management
for arterial insufficiency 7/74, **1-10**
of the COPD patient 8/74, **1, 10-15**
of epileptic patient 1/74, **1-9**
during exercise programs 10/74, **1-15**
of the healthy aged 9/74 , **1-10**
for hypertension 6/74, **1-15**
for osteoporosis 2/74, **1-9**
using transactional analysis 11/74, **1, 10-15**
for venous insufficiency 7/74, **11-15**

Physical therapy *see also Exercise*
for decubitus ulcers 12/74, 13

Pregnancy
effects of drugs during 4/74, **14-15**

Pressure sores *see Decubitus ulcers*

Pulmonary *see also COPD*
resuscitation 8/74, 6
spirometry testing 3/74, **14-15**

Renal disease
and antibiotics 4/74, **1-14**
review of kidney function 4/74, 6-9

Seizures *see Epilepsy*

Senility
in aging patients 9/74, 3-5

Stress tests
for coronary patients 10/74, 5, 11
for COPD patients 10/74, 11

Throat
culturing 2/74, **10-11**

Transactional analysis
for patient management 11/74, **1, 10-15**

Ulcer, decubitus *see Decubitus ulcers*

Varicose veins
detecting and managing 7/74, **11-15**
with edema 7/74, 13-14

Vasodilator therapy
for aging patients 9/74, 4

Venereal disease
and homosexuality 2/74, 15

Venous insufficiency *see Varicose veins*
